

Install the Absolute Hosting WHMCS Registrar Domains Reseller Module

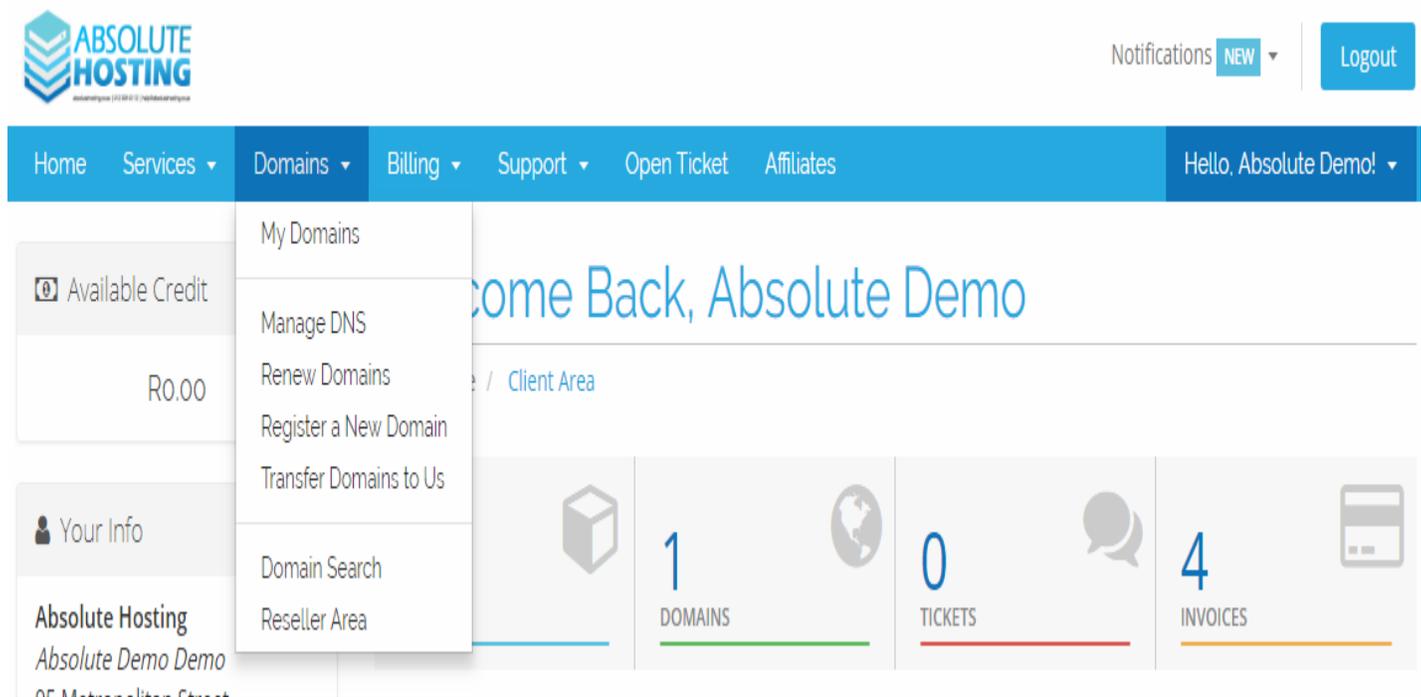

Absolute Hosting provides Domain Resellers and Web Hosting Resellers with a free WHMCS Domain Registrar module which facilitates automation of domain registration for popular domain names such as Co.ZA Domains, Org.ZA Domains, Web.Za Domains + Net.Za Domains.

This guide will walk you through the process of downloading our WHMCS Registrar module, activating the module and configuring your Domain names to use the module.

You will need an active Domain Reseller Account with Absolute Hosting - if you do not have one then get in touch with support and request that your Domain Reseller Account is activated.

Log into the Absolute Hosting Client Service Area

Download the Absolute Hosting WHMCS Reseller Module from the Domains Reseller Area

The screenshot shows the Absolute Hosting Client Service Area dashboard. At the top left is the Absolute Hosting logo. To the right are 'Notifications' with a 'NEW' badge and a 'Logout' button. Below this is a navigation bar with links for Home, Services, Domains, Billing, Support, Open Ticket, and Affiliates. On the right of the navigation bar, it says 'Hello, Absolute Demo!'. A dropdown menu is open under 'Domains', listing: My Domains, Manage DNS, Renew Domains, Register a New Domain, Transfer Domains to Us, Domain Search, and Reseller Area. On the left side of the dashboard, there is a 'Available Credit' section showing 'R0.00' and a 'Your Info' section. The main content area features a large blue heading 'Welcome Back, Absolute Demo' and a 'Client Area' link. Below this is a dashboard with four widgets: '1 DOMAINS' (with a cube icon), '0 TICKETS' (with a globe icon), and '4 INVOICES' (with a speech bubble icon). A fourth widget is partially visible on the right.

Extract the **Absolute Hosting WHMCS Reseller.zip**

Upload the contents of **/modules/registrars/AbsoluteHostingWHMCSReseller** to your whmcs installation **/modules/registrars**

Log into your WHMCS Admin Area using a new browser tab or browser window and browse to **Setup > Products/Services > Domain Registrars**

The screenshot shows the WHMCS Admin Area navigation menu. The 'Setup' menu is open, and the 'Products/Services' option is selected, which has opened a sub-menu. In this sub-menu, the 'Domain Registrars' option is highlighted. The background shows the 'Domain Registrars' page with the 'enom' logo and a search bar.
